EDUCATION

HYPERIONDEV 2023 - 2024

Software Engineering Bootcamp

UNISA 2015

Diploma in Information Technology

SELF-STUDY

2021 - 2024

Web Design and Development

TECH STACK

- JavaScript
- HTML
- CSS
- PHP
- Python
- SQL
- SQLite
- Git

SOFT SKILLS

- Collaboration
- Problem-Solving
- Communication
- Eagerness to learn

ACHIEVEMENTS

- Demonstrating commitment to learning and develepment to new technologies while completing a Software Development Bootcamp.

- Led collaborative efforts within an insurance team an communicating effectively.

- Coordinating to meet project deadlines while ensuring clarity of objectives and achieving a common goal.

HENRICO PIETERSE

SOFTWARE DEVELOPER

PROFILE

A motivated career changer with a successful track record in the insurance industry, now leveraging Python expertise gained from HyperionDev in partnership with Stellenbosch University to excel in software development. Proficient in various coding languages, adept at crafting efficient and scalable solutions, and tackling complex coding challenges with creativity and precision.

WORK EXPERIENCE

HYPERIONDEV 2023 - PRESENT

Software Engineering Bootcamp

- The bootcamp aims to introduce and develop Python and machine learning knowledge by completing practical activities.
- Achieved an overall average of 99% for the bootcamp tasks
- Mastered Python programming within six months, enhancing coding skills and efficiency in data manipulation and analysis.
- Acquired hands-on experience with key data science libraries, including NumPy, pandas, and scikit-learn.
- Successfully completed five practical, real-world projects such as *example here*.

RAUBEX PTY LTD 2018 - 2022

Insurance Administrator

- Established and maintained robust client relationships within the insurance industry, leading to a boost in client retention rates.
- Conducted detailed market research for client insights, refining product development and coverage strategies.
- Collaborated closely with the management team to create tailored strategic campaigns for insurance objectives

PROJECTS

Web Development
- Led the creation of a comprehensive, interactive website through meticulous planning.
- Developed diverse web pages and incorporated innovative features to ensure seamless functionality and engaging user experiences.

Object Oriented program development
- Developed a responsive event management application using Visual Basic and ASP.NET, ensuring optimal accessibility across devices.
- Implemented diverse pages and features including intuitive navigation, interactive forms, dynamic event listings, and registration functionalities.
- Established seamless connectivity to a live database, enabling real-time access to critical event data for informed decision-making and streamlined coordination.
